Why wood & glass

Whatever you do, whatever your occupation is
wood & glass is

4u!

if you are a contractor

Let's say that you are a contractor and you deal with renovations for domestic buildings and offices. Remember how many times you have delayed to send your quotation to your customers because your suppliers have delayed to **bring you up to date**. With wood and glass this belongs to the past now that you have the tools to send your quotation easily and quickly by just choosing the pieces you need from our catalogue. Its easy, its fast, its just for you!

And remember ,with wood and glass you have also a friend who will help you to send to your customer profesional 3D designs. If you are a contractor we will send you all our designs with your logo in order to send your quotation to your customer. Our logo should be shown too.

if you are an architect

If you are an architect you need to make your own designs for your customers, that means kitchen or bedroom or even offices. You have to visit again and again many stores and ask them to cost the kitchen you designed but most of the shops don't have the time or the knowledge or the imagination to help you with. And after a while it is very embarassing to ask the price for each small or big change your customer wants.

But dont worry! Now with our complete catalogue your limit is your imagination!

You can use any cabinet to any position, you can cut or even extend one to your needs with a small additional cost and most important you can count the cost easily from the begining.

if you are a decorator

If you are a professional decorator you need to know your options and how you can help your customers design their interior of their dreams.

Using our catalogue you will have a powerful tool to design, create and know from the beginning the cost of your designs. You can also find almost all of the available options in internal mechanisms for your cabinets and drawers.

So feel free to design by combining or even cutting one by one all the pieces you need from our catalogue.

if you are a student

If you are a student who starts a new life studying at a university away from your city or away from your country and you wish this new life to be memorable, we can make your wish come true!

Please send us your budget, your location, your house's or your room's top view and we will help you design the house of your dreams.

if you are a mum

If you are a mum and you intend to renovate or to create a new bedroom for your baby we are here to help you design it .

If you send us what you need ,we will make the design of your preference without any charge!

Or you can just design it by yourself using our catalogue. In any case we can provide the designs free of charge.

if you need someone to do the installation

If you choose us we can also arrange to do the installation. Your property is our first priority and we will do our best for a proper installation in the sortest of time.

Directions for choosing the correct dimensions for your wardrobe

1. Select the above dimensions of the wardrobe to fit as close as possible to your opening
2. From the dimensions you choose, leave 1-1.5 cm perimeter of wall-to-wall opening so that you can easily insert the assembled pieces of the wardrobe into the opening.
3. If it is longer than 2 cm, use a grout glue to close the gap (grouting).
4. If it is longer than 2-3 cm perimeter, choose to buy a filler (that is, a wood of 280 cm length and width 5 or 10 or 15 or 20 or 25 or 30 cm) which can be cut in the height you need. You can order it separately in the color of your doors or any other color you prefer.

Caution: the filler should be installed by you or your installer. Alternatively, you can send us the exact dimensions at a small fee so that we can cut it for you in order to easily install it.

5. Finally, if you want to enrich your wardrobe, you can buy accessories such as drawers, shelves, hangers, etc. (Be careful to select the right width - in the wardrobe you have already selected).

Anyway, do not worry !!! Your order is checked by the order department and if an error occurs, within three business days, a confirmation email will be sent to you or someone will contact you to confirm your items and your choices. In all other cases, if everything seems to match, a confirmation email will be sent to you,.
