### You must also know this - Important information

#### 1 important tip

If you want to choose a different height for your cabinet between two default heights, the price for your cabinet is always the same with the price of the next higher height.

##### Example 1

If you choose for instance a cabinet with one door and its height is **256 cm**, the **price will be the same with the price of the next higher height** which is in this case 259,2 cm : that means 177£ for group 1 and 204£ for group 2.

##### Example 2

If you choose for instance a cabinet with one door and its height is below the minimum height which is in this case 227,2 cm, the price will be the same as the price of the minimum height: that means 171 £ for group 1 and 198£ for group 2.

#### 2 important tip

Cabinet prices include 1 shelf, 1 oval tube and handles.

#### 3 important tip

All our prices do not include 20% VAT – If you run a business you may be exempt from VAT (Please contact us).  
For more information about VAT please visit [https://europa.eu/youreurope/business/vat-customs/cross-border/index\\_en.htm#](https://europa.eu/youreurope/business/vat-customs/cross-border/index_en.htm#)

#### 4 important tip

The wardrobe's side board of each cabinet is sold separately. Each cabinet includes only one side board (**left**) and you will need one more to close the box.

**For example:**

##### Example 1

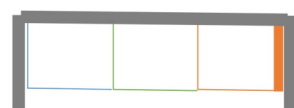

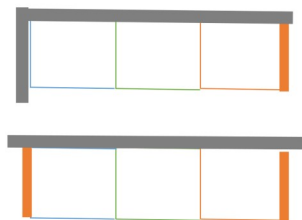

If your cabinet is going to be installed between two walls then the one side board is already included in the price and you will also need to buy one more to cover the other side. In this case the color of the two side boards does not matter to you because they are covered by the walls.

##### Example 2

If your cabinet is going to be installed in front of the wall you have two options:

1. You will need to order one extra side board(right) in the same color of your wardrobe (comes in 4 colors)
2. You will need to order two extra side boards (left-right) in order to match the same color with the color of your doors.

To better understand how this works please see the pictures below:

Between two cabinets you don't need to add extra side boards, only at the end of the installation.

How to use  
our catalogue

This is a by default cabinet - It has the right side open.

In order to close this side you can just add another piece of side board or you can just add another piece and afterwards add a side board.

### 5 important tip

To create and design the wardrobe of your dreams you can add different pieces side by side or one above the other. This procedure has no limitation except that every piece must have the dimensions from the available heights and widths.

**Example**

This wardrobe is designed by three different pieces.

**6 important tip**

It is also important to know that the default color of the interior of a wardrobe is **Beige Mat**.

**7 important tip**

You have to order an extra filler (toe kick/3,2 cm) of your wardrobe only if you wish to match the color of the filler with the color of your doors.
